1. **FUSUS. If Customer purchases a subscription to FUSUS, the following terms apply:**

    1.1. **License and Storage.** The specific license number(s) and associated data storage terms for FUSUS subscription and Axon Devices shall be set forth in the applicable Quote provided by Axon.

    1.2. **Third party Components.** Customer is responsible for use of any internet access devices and/or all third-party hardware, software, services, telecommunication services (including Internet connectivity), or other items used by Customer to access the service ("Third-Party Components") are the sole and exclusive responsibility of Customer, and Axon has no responsibility for such Third-party Components, or Customer relationships with such third parties. Customer agrees to at all times comply with the lawful terms and conditions of agreements with such third parties. Axon does not represent or warrant that the FUSUS cloud services and the Customer Content are compatible with any specific third-party hardware or software or any other Third-Party Components. Customer is responsible for providing and maintaining an operating environment as reasonably necessary to accommodate and access the FUSUS cloud services.

    1.3. **Data Privacy.** Axon may collect, use, transfer, disclose and otherwise process Customer Content in the context of facilitating communication of data with Customer through their use of FUSUS cloud services FUSUS app (iOS or Android interface), complying with legal requirements, monitoring the Customer's use of FUSUS systems, and undertaking data analytics.

2. **TASER Data Science Program.** Axon will provide a quantitative evaluation on the performance and effectiveness of TASER energy weapons in the field across a variety of circumstances.

    2.1. If Customer purchases the TASER Data Science Program, Customer grants Axon, its affiliates, and assignees an irrevocable, perpetual, fully paid, royalty-free, and worldwide right and license to use Provided Data solely for the purposes of this Agreement and to create Transformed Data. Customer shall own all rights and title to Provided Data. Axon shall own all rights and title to Transformed Data and any derivatives of Transformed Data.

AI Technology Appendix

This AI Technology Appendix shall only apply to Customers who license Axon Cloud Services in a Quote that specifically utilizes AI Technology. Unless explicitly defined otherwise, capitalized terms used in this Appendix have the same meaning as those in the Agreement.

1. **Definitions.**

1.1. **AI Technology.** Refers to artificial intelligence functionalities embedded in Axon's Cloud Services, which may include: (a) Enhanced Evidence Management; (b) AI-powered redaction tools; (c) Large Language Model-based tools (e.g., "Draft One" "Policy Chat"); (d) Predictive Analytics for operational insights; or (e) Natural Language Processing (NLP) for text and speech analysis.

Model Drift. The degradation of AI model performance due to changes in input data or external conditions, requiring retraining or updates.

Bias Mitigation. Strategies and techniques used to identify, measure, and minimize bias in AI Technology.

- **Scope and Usage.**

1.2. **Integration.** Axon AI Technology is intended to improve public safety, streamline operations, and ensure data accuracy. The AI functionalities will only be used as described in the Agreement or applicable documentation.

1.3. **Data Use.** Axon acts as a Data Processor for AI Technology. All inquiries submitted are processed solely to provide accurate responses based on Customer Content submitted. Customer remains the Data Controller of all Customer Content. Axon and Axon's subprocessors do not train their models on Customer Content. Customers who elect to participate in Axon's ACEIP program can enter into custom agreements to assist in product development efforts like AI model training. Even in those cases, Axon operates carefully on redacted data and not on Customer Content.

Automatic Data Collection. AI Technology may automatically collect Non-Content Data about user interactions with the service and their devices to enhance the functionality and security of the system. The details collected include, but are not limited to, the following:

User Engagement and Activity Metrics. AI Technology may track key engagement statistics, including Daily Active Users (DAUs), Weekly Active Users (WAUs), and Monthly Active Users (MAUs). Additional metrics include new user activations, repeat usage rates, total queries submitted, follow-up query volume, session lengths, retention rates, and user satisfaction ratings (e.g., thumbs up/down feedback).

Sales and Adoption Tracking. Axon monitors the number of licenses and agencies purchasing the service, including those in trial phases, fully deploying the service, and conversion rates from trials to paid subscriptions.

End User inputs. Axon may process de-identified end-user inputs to the AI Technology, excluding Customer Content or any data that directly or indirectly identifies individuals.

- **Axon Responsibilities.**
